# **TECHNICAL DATA SHEET**

## 1. TRADE NAME: ROACH TAB

Food based tablet for the monitoring of the following target crawling insects: *Blattella germanica*, *Blatta orientalis*, *Periplaneta americana* and *Supella longipalpa*.

Monitoring device for the IPM application complying with UNI EN 16636:2015 Regulation, that must be applied to control regularly the pests' presence in a specific place for a defined time.

2. PRODUCT CODE: P-01052

#### 3. PICTURE:

## 4. TECHNICAL SPECIFICATIONS:

The Roach Tab is a food-based tablet for cockroaches that must be used inside an adhesive trap. In order to enhance the attractive effect of the gel already present in some traps, we suggest the use of this article in Geotrap Gel (P-04047), Geotrap Evo (P-04147), Geotrap Mini (P-04094), Geotrap Plastic (P-04002GEL) and Scar4trap (P-04013). The Roach Tab is also suggested to be used inside Monitor Guard traps (P-04081) and 3 Way Trap (P-04031).

### **Characteristics:**

- Rounded tablet made of mix of food substances and excipients;

- Diameter: 12 mm;

- Weight: 840 mg / tablet.

Measure of the blister pack: 95 x 60 mm.

Colour: As in the picture

InPEST products could undergo necessary or opportune technical changes, at any given time, without prior written notice to customers.

# **TECHNICAL DATA SHEET**

#### 5. HOW TO USE:

Place the Roach Tab inside the traps mentioned at point 4, in the following places:

- Near cable trough and electric boards, dishwashers, sinks, ovens, sourdough rooms, platforms, engines, discharges, doors and perimeters, moist and hot environments, and everywhere the presence of crawling insects is suspected;
- In dark areas:
- On the floor or on the wall.

We suggest you to give a number to each trap and indicate its placement in the monitored area plan, in order to facilitate the check during the periodic monitoring.

We suggest the use of gloves every time the tablet is handled. The eventual smoke or other smells could undermine the product efficacy.

**Theoretical covered area:** place the traps containing the Roach Tab at a distance of 3-5 m from each other, according to the infestation level.

**Suggested monitoring period:** all the yearlong.

**Suggested frequency of the controls:** weekly. Change the Roach Tab after two months (maximum) or in advance in relation to the conditions of infestation, the presence of dust and of water/humidity in the environment.

**Storage conditions:** in a cool and dry room, temperature below 25°C and R.H. below 55%. If well stored (intact packaging), the product shelf life is 3 years. From the pack opening, the tablet lasts 60 days.

## 6. PACKAGING AND SPARE PARTS:

- 10 tablets per blister;
- Case: 200 pieces (20 blisters sales unit).

## 7. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
