

## TECHNICAL DATA SHEET

### 1. TRADE NAME: **MULTISPECIES TAB**

The Multispecies Tab is a food tablet to be introduced inside a trap for the monitoring of *Tribolium* spp., *Sitophilus* spp., *Lasioderma serricorne*, *Oryzaephilus* spp., *Trogoderma* spp., *Blatta orientalis*, *Blatta germanica*, *Periplaneta americana*, *Supella longipalpa*, *Lepisma saccharina*, *Thermobia domestica*, *Cryptolestes ferrugineus*, *Rhyzopertha dominica* and *Liposcelis*.

Monitoring device for the IPM application complying with UNI EN 16636:2015 Regulation, that must be applied to control regularly the pest's presence in a specific place for a defined time.

### 2. PRODUCT CODE: **P-01154**

### 3. PICTURE:

### 4. TECHNICAL SPECIFICATIONS:

The Multispecies Tab is composed of a mix of alimentary substances. It is a combined item to be used inside 3 Way Trap (glue trap P-04031), so that its attractive action allows the monitoring of the mentioned pest.

It is packed in laminated film and cardboard skilket.

#### **Measures:**

- Tablet diameter: 16 mm
- Tablet thickness: 5 mm
- Tablet shape: cylindrical tablet
- Weight: 1,20 g/tablet

**Colour:** As in the picture

InPEST products could undergo necessary or opportune technical changes, at any given time, without prior written notice to customers.

## TECHNICAL DATA SHEET

### 5. HOW TO USE:

Place the Multispecies Tab, with the coloured side facing upwards, inside 3 Way Trap (P-04031), which must be placed on the floor.

It must be used inside food industries, storehouses, herbalist's shops, and all those places where it is stocked: wheat, cereals, biscuits, bread, pasta, chocolate, cocoa, candy, dried fruit, nuts, tea, camomile, tobacco, spices, etc.

We suggest you to give a number to each trap and indicate its placement in the monitored area plan, in order to facilitate the check during the periodic monitoring.

We even suggest the use of gloves every time the tablet is handled. The eventual smoke or other smells could undermine the product efficacy.

**Theoretical covered area:** place 3 Way Trap at a distance of 3-5 meters the one from the other, according to the assumed pest infestation.

**Suggested monitoring period:** all the yearlong.

**Suggested frequency of the controls:** weekly. Change the tablet and the trap after two months (at the latest) or before, according to the pest infestation or the presence of dust, water and/or damp in the environment.

**Storage conditions:** in a cool and dry room, temperature below 25°C and R.H. below 55%. If well stored (intact packaging), the product shelf life is 3 years. From the pack opening, the tablet lasts 60 days.

### 6. PACKAGING AND SPARE PARTS:

- Skillet: 15 pcs (sales unit), packed in laminated film (n.3 pieces per strip, for a total of 5 packs per skillet).

### 7. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
