TECHNICAL DATA SHEET

1. TRADE NAME: EASY BUGS

Banana flavoured monitoring device for the control of *Cimex lectularius* (bed bugs). Monitoring device for the IPM application complying with UNI EN 16636:2015 Regulation, that must be applied to control regularly the pests presence in a specific place for a defined time.

2. PRODUCT CODE: P-04181

3. PICTURE:

4. TECHNICAL SPECIFICATIONS:

Easy Bugs is a monitoring device patented by Domobios, research and development company, developed in collaboration with GEA.

The device consists of an adhesive trap which, thanks to the adhesive surface placed in the upper part of the trap, allows the capture of the insect from the back, in order to prevent the bug from emitting alarm signals.

It is composed of:

- Plastic support with 5 openings for the insect entrance;
- Cardboard, which cover the plastic support, with adhesive surface inside the trap;
- Hot melt adhesive banana flavoured;
- Optional double-sided adhesive tape to be affixed on the plastic support for placing the trap on the desired surface.

Trap size:

Length: 170 mmWidth: 30 mmHeight: 4 mm

Glue Area: 77,5 x 25 mm

Colour: As in the picture

5. HOW TO USE:

DATE: 25/10/2023 REV N°: 1 MOD: 4.1.2. UK

TECHNICAL DATA SHEET

Place a number from 4 to 8 of Easy Bugs, with or without double-sided adhesive tape, in the following places:

- under the sofa cushions, along and behind footboard, along and behind baseboard, behind frames, along and behind headboard, behind curtains or near vents, etc., of: hotels, motels, hostels, prisons, hospitals.
- under the seats of trains, buses, ferries, etc.;

It is suggested to numbering each trap and its relative position in the monitored area plan, in order to facilitate the control during the periodic monitoring.

Suggested monitoring period: all the yearlong.

Suggested frequency of the controls: weekly. Change the trap after two months (at the latest) or before according to the pest infestation or the presence of dust, water and/or damp in the environment.

The use of the trap in a dusty place could reduce the product functionality in the course of time.

Storage conditions: in a cool and dry room, temperature below 25°C and R.H. below 55%. If well stored (intact packaging), the product shelf life is 3 years.

6. PACKAGING AND SPARE PARTS:

- 10 pieces per case;
- 5 cases for package (50 pieces).

7. DISPOSAL CONSIDERATIONS:

Waste disposal should be in accordance with existing Community, National and local regulations.
